Amendments to the Claims

This listing of claims will replace all prior versions, and listings, of claims in this application:

Listing of Claims:

1. (Currently Amended) A hidden hinge comprising:
  - a first part and a second part, the first part located generally forwardly of the second part and the second part located generally rearwardly of the first part;
  - a hinge pin attached to the first part;
  - a hiding member having a first hiding member portion located forwardly of the hinge pin and extending from a section of the first part located on one transverse side of the hinge pin to an opposing transverse side of the hinge pin and a second hiding member portion which extends rearwardly from the first hiding member portion on the opposing transverse side of the hinge pin and extends from a forward side of the hinge pin to a rearward side of the hinge pin; and
  - a hook member connected to the second part, the hook member hooked around the hinge pin, the hook member extending from a section of the second part located rearwardly of the hinge pin, through a space between the first hiding member portion and the hinge pin, around the hinge pin, and back toward the second part.
2. (Cancelled)
3. (Original) A hidden hinge according to claim 1 wherein the hook member is formed integrally with the second part.

4. (Withdrawn) A hidden hinge according to claim 1 wherein the hook member is on a piece separate from the second part which piece is affixed to the second part.
5. (Original) A hidden hinge according to claim 1 wherein the hook member has an opening smaller than a width of the pin such that the pin snaps into place in the opening of the hook member.
6. (Cancelled)
7. (Previously Presented) A hidden hinge according to claim 5 wherein the hook is formed integrally with the second part.
8. (Cancelled)
9. (Withdrawn) A hidden hinge according to claim 1 wherein at least one of the hiding member and the hook member is on a piece separate from the second part which piece is affixed to the second part.
- 10.-12. (Cancelled)
13. (Withdrawn) A hidden hinge according to claim 1 wherein the first part comprises a base of a box and the second part comprises a lid of the box.
- 14.-15. (Cancelled)
16. (Withdrawn) A hidden hinge according to claim 13 comprising a plurality of hinge pins axially aligned with and spaced apart from one another.

17. (Withdrawn) A hidden hinge according to claim 16 wherein the hinge pins are molded into a flange extending from the edge of the lid.
18. (Cancelled)
19. (Withdrawn) A hidden hinge according to claim 1 wherein the hook extends around the hinge pin for more than 180 degrees.
20. (Withdrawn) A hidden hinge according to claim 19 wherein the hook has an opening smaller than a width of the pin and the hook snaps into place around the pin.
21. (Cancelled)
22. (Withdrawn) A hidden hinge according to claim 1 wherein the hiding member is bent and extends around two sides of the hinge pin.
- 23.-29. (Cancelled)
29. (Previously Presented) A hidden hinge according to claim 1 wherein the hiding member is integrally formed with the first part.
30. (Cancelled)
31. (Previously Presented) A hidden hinge according to claim 5 wherein the hiding member is integrally formed with the first part.
- 32.-33. (Cancelled)
34. (Previously Presented) A hidden flange according to claim 29 wherein the hiding member is penetrated by one or more

apertures for facilitating injection molding of the hinge pin rearwardly thereof.

35. (Cancelled)

36. (Currently Amended) A hidden hinge according to claim 31 wherein the hiding member is penetrated by one or more apertures for facilitating injection molding of the hinge pin rearwardly thereof.

37. (New) A hidden hinge according to claim 1 wherein the first hiding member portion blocks access to the hinge pin and the hook member from the forward side of the hinge pin.

38. (New) A hidden hinge according to claim 1 wherein the second hiding member portion blocks access to the hinge pin and the hook member from the opposing transverse side of the hinge pin.

39. (New) A hidden hinge according to claim 1 wherein the second hiding member portion blocks access to the hinge pin and the hook member from the opposing transverse side of the hinge pin.
